04 NEWS & NOTABLE

LEAD STORY

Permian Resources Leads the Basin with 27 Permits

Permian Resources Operating LLC filed 27 permits this week, making them the most active operator in the Permian for the week of March 2-6, 2026. Prior week was 43 and their 8-week average is 12.2. This week is above their recent pace, driven by concentrated activity across Lea and Eddy Counties.

COUNTY WATCH

Reeves County (RRC 8) Drops 24 Permits WoW

Reeves County fell from 26 permits last week to just 2 this week, a WoW change of -24. This is the sharpest county-level decline this week, driven by the absence of BPX Operating Company which had dominated Reeves permit filings in prior weeks.

DEPTH NOTE

Deepest Well: 31,445 ft — Devon Energy in Lea County

The deepest permitted well this week was GREEN WAVE 17 32 FEDERAL COM #800H filed by Devon Energy Production Co LP in Lea County, NM at 31,445 ft. The top two depth positions are both held by Devon Energy in the same Lea County prospect, signaling continued commitment to deep Delaware Basin targets.

FIELD NOTE

Occidental Double-Entry: 26 Combined Permits This Week

Occidental Petroleum filed through two entities this week: OXY USA Inc. (11 permits, Lea County NM) and Occidental Permian Ltd. (15 permits, Yoakum County TX). Combined, Occidental is the second-most active parent company this week with 26 total permits across two distinct geographies.
